Charlie Town's Submits for Existing Silver Republican Campaign Fund.

HOW WOULD YOU LIKE TO BE A DELEGATE

By Contributing One Plank to the Cause You Can Secure Appointment to the Kansas City National Meeting.

LINCOLN, May 20.—(Special.)—The officers of the silver republican state central committee have adopted a novel method of raising funds to defray the expenses of a Nebraska headquarters at Kansas City during the national convention and incidentally swell the fusion campaign fund for the state.

Secretary A. H. Gleason, who holds a position in the state labor bureau, has been authorized by Charles A. Towne of Minnesota to appoint every silver republican in the state as a delegate to the national convention, which is designed to be a sort of a mass meeting, and besides carrying out his instructions he attaches to each appointee a check for the sum of \$1.00. After this is paid his credentials are forwarded by the committee, but not until then it is the intention of the silver leaders to run a special train to Kansas City, carrying at least 500 of these "delegates."

If each of them pays the required fee of \$1.00, the committee will have a fund of \$500, but it is hardly probable that all of this money will be expended for the Nebraska headquarters at Kansas City.

The Lincoln Golf club perfected its organization last night and arranged for the use of grounds near the Pizzano club in South Lincoln. The officers are: S. H. Burnham, president; Dr. M. H. Garten, vice president; H. C. Young, secretary; C. Y. Smith, treasurer; Dr. W. L. Dayton, F. M. Hall and John T. Dorgan, executive committee.

HIGH SCHOOL COMMENCEMENT

Various Nebraska Towns Graduate Full Classes with Unusually Interesting Exercises.

ALBION, Neb., May 20.—(Special.)—Last week was a busy one in school matters. Sunday evening the baccalaureate sermon was preached at the opera house by Rev. James of the Episcopal church. Wednesday evening the class exercises took place at the same place and instead of the class oration, music by the Choral Union and a short play by the class, were presented, with other light entertainment.

Thursday night, at the graduating exercises, The Musical Union, under the leadership of O. M. Needham, opened the program with the bridal chorus from the opera, "The Rose Maiden." It was so well received that it was obliged to respond to an encore. This was followed by the address delivered by Dr. H. O. Rowlands, pastor of the First Baptist church of Lincoln. A piano solo in the song, "Holy Mother Guide His Footsteps," by Dr. Charles Sitzer, followed. Dr. Sitzer was heartily cheered.

A. W. Ladd presented the diplomas in a short address. Prof. Abbott made a short farewell address, as he leaves this school this year. He made the statement that out of the class of last year, consisting of fourteen members, only three are still in college and that out of the present class of thirteen members, five boys and eight girls, all of the boys and all but three of the girls had made arrangements to enter either the university or college. It was doubt whether such a showing can be made by any other school in the state. Those graduated were: Anna V. Armstrong, Sadie D. Kirkpatrick, Bertha M. Baker, Mary E. Lane, Roy C. Curtis, A. Bowman Liley, Archibald L. Campbell, Gilbert H. Bennett, Elmer E. Stover, Minnie F. Patterson, Hattie W. Hamilton, Maude E. Stangl, Jennie B. Wisnom.

The exercises of the eighth grade were held at the Congregational church last night and the banquet given tonight by the alumni finished the week's exercises.

FALL WILL LIKELY PROVE FATAL

Union Pacific Workman at North Platte is Badly Injured. NORTH PLATTE, Neb., May 20.—(Special.)—Albert Parks, a workman employed by the Union Pacific, fell from the top platform of the coal chutes at this place last night and was severely injured. He is now lying in a critical condition and may not recover.

Parks was starting to descend the ladder from the top of the coal chute when a lantern in his hand, when he got stepped on the first rung and he fell to the ground below. There was nothing to break the force of his fall and he was knocked insensible by striking on his head. The platform is fifty feet above the ground. He recovered consciousness in about half an hour and crawled to the door of his home, bleeding and exhausted. He was found to have suffered a fracture at the base of the skull and a laceration of the brain. That he fell from so great a height without being instantly killed seems a miracle. Parks is now very low, but has a chance for his life.
